

AER Neurological Visual Impairment Division

Please note: the correct time for the May 12 webinar is 3:00 pm (Eastern)

Greetings NVID!

There is so much going on right now that our NVID crystal ball says to be prepared for more email blasts than ever before...

May 12th at 3:00 PM EST

The amazingly distinguished Dr. Corinna Bauer will be sharing her insights on Dorsal Stream Dysfunction in this week's CVI for the TVI she presents, Dorsal Stream Functions in CVI: The "Where" Pathway. [Register Here](#) Dr. Bauer will explain multiple aspects of dorsal stream dysfunctions and its impact on the individual. Through this discussion, participants will explore how to determine which aspects are easy and which are challenging for each individual with CVI, in order to better target interventions.

Learning Objectives:

- Define and describe the brain's dorsal stream
- Explain the relationship between the dorsal stream and cortical/cerebral visual impairment
- Identify impacts of dorsal stream dysfunction of functional vision
- Suggest interventions specific to dorsal stream challenges to support educational development

It's time for officer nominations for the 2022-2024 term! We welcome both nominations and self-nominations for the following positions:

- Chair-Elect
- Secretary

Please consider joining an amazing team working to share knowledge about this important topic! Nominations will be open through May 22, 2022. Please send the nominee's name, position interested in running for, and a brief bio to Susan O'Brien at sesullivantvi@gmail.com.
